

If you are interested in purchasing a puppy or dog from our lineage, please fill out the questions below and provide two references, along with your veterinarian's name, address and phone number. Please understand that we are looking for *FOREVER* homes and reserve the right to REFUSE any application that we believe is not in the best interest of the dog for whatever reason.

These Lhasa Apsos come with a health guarantee. Puppies must be spayed or neutered at the appropriate age, at which time AKC registration will be released to you. Puppies usually leave for their new home between 10 and 12 weeks of age, depending on their litter size and development. Puppies are born in our homes, usually in the living room next to the couch, since they tend to be born during the night. They are all raised within our homes, socialized with people, children and other pets. We require a non-refundable \$500 deposit at 2 weeks of age to hold your puppy which is applied to the final price of \$1000.00. These Lhasa Apsos represent generations of the Kunza at FleetfireTimbers breeding program and an intimate knowledge of those dogs, including their health and temperament. Vast experience is applied to each and every breeding to produce, indeed, champions of competition and family pets of great character.

On occasion, dogs retired from either the breeding program and/or show ring are available for their own forever home. To meet some of the dogs now in their own forever home visit the [Gallery](#). To meet some of the people and their dogs, join us on the [blog](#).
